

Thank you again for visiting Dweller! It was started in 2013 to conduct on-sight investigations, and provide answers to real questions, but if not for Jesus Christ, Dweller would be just as lost as every other paranormal group.

Initially we wanted to have an experience: we did. We wanted to capture video: we did. But what in the world can you do about it? How in the world can I look a family in the eye and tell them, "Your problem is this, caused by that, and you might try these." Really???

In order to reconcile what I do with what I believe, and that is, the Bible; I had to enter into a long study. By researching God's word, and authors of faith in God's word, my eyes were opened to the truth of the paranormal, and the deception involved.

I found out that my involvement in the paranormal is not to seek thrills or engage demonic spirits, but to bring those who are seeking answers to this question, to the ultimate authority, and power in the universe. Sounds pretty intense, but that is the truth. I can no longer sit back and watch the blind lead the blind.

We have counseled people who are demonically afflicted, and yes, there is an answer, there is hope. If you compare the blog on this site, you will notice a drastic difference between Dweller and any other paranormal investigation service. Most are out to capture a ghost. Most will go in skeptical, and anything that can't be explained naturally must be classified "paranormal".

Are you a liar? If you want some answers, you probably want someone to believe you, not come in and say, "we won't believe you till we see it with our own eyes." Then what? Do they think people who are calling just wanted some complete strangers wandering around

their home all night? Most people who are looking for help, have exhausted their options, and have no choice. What are they getting?

Dweller understands that houses make noises, shadows are cast; but when something is happening, all you want is someone to come in and give you real answers. Real answers are what you will get, you might not like them, but you'll have them.

Dweller isn't going to bite the bait. It isn't aunt Betsie or cousin Fred, or anyone else that causes you sleepless nights. But it is supernatural, and that just doesn't fit with today's culture.

The information you have just read is to give you an idea of who we are, and why we do what we do. If you are experiencing something you can't explain, or think you're going crazy because of unexplainable occurrences, get in touch with us. It's our mission to bring healing and truth into your life, not invade your privacy, or to question your integrity. We don't conduct group tours or rummage around abandoned buildings, we work real jobs and don't have the time for that, but if you have a problem... that's our priority.
